

Overview

Completed for £5,205 (inc. VAT, delivery and installation)

This structure has two play platforms and a den area; it gives the children lots of different circuits to do as well as an area to hide.

The left hand platform is 4ft wide x 5ft deep and is accessed via a staircase to the front, under this platform is the den area, which has a decking floor and 3 surrounding walls. There are 5 octagonal port hole style windows and 1 castle style window in these walls, access to the den area is next to the staircase.

From this first platform you can walk across the wobble bridge to the platform on the right hand side, 6ft wide x 5ft. Coming off from this is a climbing wall with knotted rope and a rope ladder which gives another access point to the ground.

Underneath the platform a tyre swing and a punch bag are fitted, whilst on the platforms a ships steering wheel, a telescope and a corded flag pole with pirate flag have been fitted.

Both platforms are set 4ft from the ground

Dimensions

Footprint width: 4.3m (14')

Footprint depth: 1.5m (5')

Colours

Finished with Sadolin Classic Timber Protection. There are many more colour options available on our website.

Woodruff (Sadolin Classic)
Balustrade rails

Build Specification

The following specification reflects that of the featured build with the price shown at the top of this document. Please refer to our website for details on other build options.

Floor

Raised Platform

A standard platform construction for all raised projects, this can either be used as on open platform or have a building installed directly onto it.

- Posts 100mm x 100mm pressure treated redwood planned with swept edges
- Spacing as appropriate but a minimum of 1.8m centres
- Bearers to be 100mm x 50mm pressure treated bearers
- The structure is fitted together using 150mm, 100mm and 80mm screws, zinc yellow
- Braces are fitted at the top of each post
- Posts fitted into ground as appropriate
- If required concrete is used to secure posts in to the ground
- 125mm x 35mm good quality pressure treated grooved decking boards are fitted to the bearers using decking screws
- A skirt is fitted around outside edge of platform

For an additional cost the decking can be painted with an anti-slip paint, please ask for details.
