

Overview

Completed for £6,550 (inc. VAT, delivery and installation)

A large activity play structure with a two storey castle; the second storey is an open tower which leads via a wobble bridge to an activity platform with a climbing wall and slide.

Starting on the right hand side of the structure the castle tower is 6ft wide by 5ft deep and 8ft high.

There is an open doorway to the right hand side of the front of the tower with an unglazed slit window to the left.

A staircase on the far right of the structure leads up to the open top storey of the tower and the landing area "hides" a second open entrance way into the ground floor of the castle tower. There is internal access to the top storey via a vertical ladder which is situated inside the ground floor area.

A pulley system with basket is attached at the rear of the tower; this is an essential means of bringing supplies to and from the top of the castle tower.

A further two unglazed castle slit windows are situated to the front of the top storey, with two more on ground floor to the left hand side and one on the top floor overlooking the staircase. A third open doorway on the left hand side of the upper storey leads to an ever popular wobble bridge which in turn leads to a platform area surrounded with balustrade rails.

The platform area accommodates a climbing wall with knotted rope to the front, a slide to the left hand side and a punch bag beneath.

Dimensions

Maximum height: 2.4m (8')

Footprint width: 4.3m (14')

Footprint depth: 1.5m (5')

Playhouse width: 1.8m (6')

Playhouse depth: 1.5m (5')

Internal height: 1.53m (5')

Footprint note: Plus slide and climbing wall

Colours

Finished with Sadolin Classic Timber Protection. There are many more colour options available on our website.

Woodruff (Sadolin Classic)
Walls

Smoky Blue (Sadolin Classic)
Doors, Windows, Balustrade

Build Specification

The following specification reflects that of the featured build with the price shown at the top of this document. Please refer to our website for details on other build options.

Doors

Open Doorways

Open doorways are normally used on our castles or open structures, providing a great access route to areas

- Made from good quality redwood, planned with swept edges
- Fits snugly within the wall of the structure to give a neat doorway/entrance
- Fully treated in your choice of colour from our standard range

Floor

Ground Level Decking

Decking can be laid at ground level either as a floor for a play-frame, a sub base for a play structure or to give an additional play area.

- The decking boards are good quality 35mm x 125mm grooved redwood boards that are pressure treated.
- The deck boards are screwed to the pressure treated 50mm x 100mm timber bearers
- A weed prevention membrane is fitted below the decking to ensure that there is no plant growth up through the boards.
- If it is being used as a sub-base or play area a skirt is fitted to match to deck.

For an additional cost the decking can be painted with an anti slip paint, please ask for details.

Windows

Open Unglazed Window

These windows are built as a separate unit; once finished they are sanded and treated prior to being fitted in the sides.

Build Level

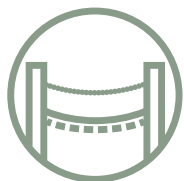

Playframe

- Our playframes have an external grade wall used on buildings and parts of projects where the weather will have full access to the inside as well as the outside.
- The framework is built using a good quality, 38mm x 50mm profile redwood timber planned and sanded with swept edges.
- The framework is fixed together using zinc yellow screws
- 12mm Redwood cladding is fitted to the outside of the framework, this is glued as well as pinned with 38mm galvanised pins
- The wall is finished inside and out with paint/preservative to suit
- If the top edge is exposed a tanolised edge trim is fitted.

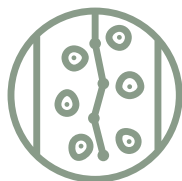

Included Accessories

These accessories are included in the featured build. You can customise your playhouse by adding more accessories. Please visit our website to see all the options.

Active Fun

Wobble Bridge

Climbing Wall & Knotted Rope

Slide - All Plastic

Punch Bag

Pulley with Basket
