

Overview

Completed for £4,840 (inc. VAT, delivery and installation)

A children's play platform which gives lots of opportunity for active play.

The project consists of three interlinking platforms with activities attached. The platforms are set to follow the contour of the ground and so are all at different levels.

Access to the right-hand side platform, 5ft wide x 4ft deep, is via a staircase, the initial height of this is set at 3ft. From this platform the route to the next platform, 6ft wide x 4ft deep, is via a wobble bridge, this can also be accessed via a rope ladder at the back.

There is then a walkway between the central platform and the left hand platform, 4ft wide x 4ft deep. This final platform has a climbing wall coming off from the front and a fireman's pole to the side.

With so many circuits for the children to explore, they are sure to get tired out.

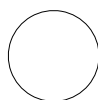

Dimensions

Footprint width: 6.7m (22')

Footprint depth: 1.8m (6')

Colours

Finished with Sadolin Opaque Timber Protection. There are many more colour options available on our website.

Superwhite (Sadolin Opaque)

Build Specification

The following specification reflects that of the featured build with the price shown at the top of this document. Please refer to our website for details on other build options.

Floor

Raised Platform

A standard platform construction for all raised projects, this can either be used as an open platform or have a building installed directly onto it.

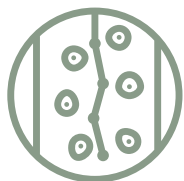

- Posts 100mm x 100mm pressure treated redwood planned with swept edges
- Spacing as appropriate but a minimum of 1.8m centres
- Bearers to be 100mm x 50mm pressure treated bearers
- The structure is fitted together using 150mm, 100mm and 80mm screws, zinc yellow
- Braces are fitted at the top of each post
- Posts fitted into ground as appropriate
- If required concrete is used to secure posts in to the ground
- 125mm x 35mm good quality pressure treated grooved decking boards are fitted to the bearers using decking screws
- A skirt is fitted around outside edge of platform

For an additional cost the decking can be painted with an anti-slip paint, please ask for details.
